

## WallMax Liquid Laminate Waiver

---

Job Name \_\_\_\_\_

Job / Quote # \_\_\_\_\_

By my signature hereto, I agree to waive the option to receive the recommended WallMax liquid laminate. WallMax is a Type II Certified protective top-coating that significantly increases the stain & abrasion resistance, UV protection, and fire retardance of digitally printed wallcoverings.

I understand and acknowledge that this is a custom product and therefore is non-refundable.

In the event any action is brought against 4walls related to stain and/or abrasion resistance of the finished product, agrees to defend, hold harmless and indemnify 4walls against any causes of action, liability, damages or costs of any kind or nature.
